HYGIENE CATALOGUE

HYGIENE AND FOOD SAFETY

Hygienic Brushware
for all your cleaning needs

CLEANING TOOLS SPECIALLY DESIGNED FOR HYGIENICALLY SENSITIVE INDUSTRIES

The HEDGEHOG® Hygiene brushware range is a comprehensive collection developed to meet the stringent requirements of the food and beverage processing, catering and hospitality industries.

All products are specially designed for durability and efficiency. They are colour coded to allow segregation and prevent cross contamination.

THE BENEFITS

- Heat resistant
- Acid and alkali resistant
- A diverse range to meet a variety of workplace needs
- Strong and durable
- 12 colours available for use in different areas to reduce the risk of cross contamination
- Materials meet FDA requirements

Scrapers and Scoops	39
Buckets	45
Duoswee® Floor Squeegees	49
Handles	59
Belowat® Water-Fed System	63
Tool Holders	69

COLOUR-CODED SEGREGATION

Colour-coding of cleaning equipment is an effective strategy to reduce cross contamination between work areas. It has an application across a broad range of industries including:

- Food processing
- The meat industry
- The beverage industry
- Retailing
- Pharmaceutical production
- Hospitals, schools and universities
- Hotels, restaurants and entertainment venues

Each series of products in the Hedgehog® range has up to 12 colours available. These colours help to separate cleaning equipment, food handling tools and other equipment into colour-coded areas.

Colour-coding is a useful aid in improving food safety and quality and ensures operators are well placed to comply with GFSI-approved food safety standards.

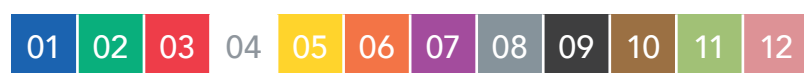

The Global Food Safety Initiative (GFSI) approved BRC, FSSC22000, IFS and SQF food standards. All these standards list colour-coding as a requirement to prevent cross-contact and cross-contamination and to improve food safety.

The main benefits of colour-coded cleaning are:

- It helps to minimise the risk of cross contamination of areas by micro organisms, allergens and foreign bodies
- Where colour coded equipment is assigned to a matching colour area, storage, shelf or wall space it is easy to identify tools and equipment that are out of place
- It is a simple system that is easy to understand especially for complex workplaces with a diverse workforce operating across multiple shifts and locations
- It improves workplace safety and procedures and leads to a more organised and cooperative workplace culture
- It can maximise the service life of cleaning equipment by ensuring that tools fit-for-purpose are used in the correct environment, thus reducing costs
- It simplifies the procurement and re-order process with easy inventory control
- and lastly from an aesthetic and brand prospective it creates confidence in the plant operator that they are organised, responsible, pro-active and capable of ensuring high standards of hygiene and product safety and security.

There are 12 colour codes as per below. Please specify the colour code after the product code when ordering.
(eg. xxxxx-01 is the product xxxxx in blue colour.)

Use colour-coded cleaning equipment to reduce the risk of cross-contamination

All Hedgehog® brushes comply with the following food safety standards

Brushes and Brooms

The Hedgehog® range offers a wide range of hygienic brushes and brooms. They come in various shapes and sizes for use in multiple applications. All bristles are made from PBT. They are non-absorbent, wear resistant, acid and alkali resistant with good elasticity, which makes Hedgehog® Hygiene Products highly effective and durable.

The product range includes Antifur® Resin-Set Brushes and Brooms - specially designed for use in the food and beverage industry, and in applications where they come into contact with food. The shed-free feature helps to ensure that the bristles will not appear in the food or beverage.

Also available is the Metaray® Metal Detectable Range - suitable for highly demanding food and pharmaceutical manufacturing environments. The range contains components that can be detected by metal detection equipment, preventing such material from remaining in the end-products.

All Hedgehog® Hygiene Brushes and brooms were designed with ergonomics in mind. They are comfortable to handle and use. The bristles are orientated to maximise cleaning effectiveness for the jobs they've been designed for. The ergonomic design helps to prevent occupational injuries caused by long-term use of the brushes.

There are a range of bristle flexibility options available. Brushes and brooms with stiff bristles are designed for scrubbing. They are ideal for removing stubborn dirt. Brushes and brooms with soft bristles are ideal for sweeping powders and other small and lightweight particles.

Antifur® Resin-Set Brushes

Nail Brush

01 02 03 04 05 06

CODE						
12123	120 × 44 × 37	PBT	17	0.4	134	6

- Helps to clean hands and scrub the underside of nails.

Round Scrub Brush

01 02 03 04 05

CODE

Multi-face Scrubbing Broom

CODE						
10726	255 × 128 × 95	PBT	41	0.45	134	6

- ▶ Suitable for cleaning corners, and for reaching below equipment.
- ▶ Also suitable for cleaning sewer trenches.
- ▶ Use with a handle.

01 02 03 04 05 06

Light Duty Compact Sweeping Broom

CODE						
10816	425 × 62 × 125	PBT	60	0.3	134	6

- ▶ Ultra soft bristles ideal for sweeping small and lightweight particles.
- ▶ Use with a handle.

01 02 03 04 05 06

Heavy Duty Compact Sweeping Broom

CODE						
10836	425 × 62 × 125	PBT	60	0.6	134	6

- ▶ Ideal for large and heavy particles in wet areas.
- ▶ Use with a handle.

Metaray[®] Metal Detectable Range

The Hedgehog[®] Metaray[®] Metal Detectable Range of products is specially designed for use in food and pharmaceutical manufacturing where high standards of cleaning and product integrity are required.

The range is engineered from material with components that can be detected by a metal detector should accidental damage occur, causing fragments to enter production lines.

The Hedgehog[®] Metaray[®] Metal Detectable Range meets FDA requirements and is safe for use in food and pharmaceutical manufacturing environments.

There are a variety of products to choose from, designed to meet a range of varied use requirements.

Metaray® Metal Detectable Range

Nail Brush

01

CODE						
12122	120 × 44 × 37	PBT	17	0.4	134	6

- Helps to clean hands and to scrub the underside of nails.

Multi Purpose Hand Brush

01

CODE						
12432	245 × 80 × 134	PBT	44	0.6	134	6

- Comfortable to hold even after a lengthy time in use.
- Suitable for use on all devices, countertops and walls.

Bench Brush

01

CODE						
12532	317 × 38 × 120	PBT	57	0.6	134	6

- Comfortable to hold even after a lengthy time in use.
- Suitable for use on all devices, countertops and walls.

Multi Purpose Long Handled Brush

01

CODE						
12632	410 × 52 × 140	PBT	40	0.6	134	6

- Cranked handle keeps the user's hand away from the work surface to avoid contact with harmful chemicals.
- Suitable for cleaning a small area of the benchtop, pot and equipment surfaces.

Flour Brush

01

CODE						
13322	280 × 21 × 102	PBT	57	0.4	134	12

- ▶ Long and narrow design.
- ▶ Suitable for cleaning large areas of benches and equipment.
- ▶ Soft bristles suitable for cleaning small, dry debris, such as flour, sugar and dust.
- ▶ Use with a dustpan.

Scrub Brush

01

CODE						
12932	175 × 55 × 55	PBT	32	0.6	134	6

- ▶ Ideal for cleaning benches, buckets and equipment surfaces.
- ▶ Short and stiff bristles are suitable for removing stubborn stains.

Extra Large Scrub Brush

01

CODE						
12942	216 × 75 × 62	PBT	38	0.6	134	6

- ▶ Ideal for cleaning benches, buckets and equipment surfaces.
- ▶ Short and stiff bristles are suitable for removing stubborn stains.

Sweeping Broom

01

CODE						
10122	330 × 75 × 125	PBT	55	0.4	134	6

- ▶ Ideal for sweeping large and heavy particles in wet areas.
- ▶ Use with a handle.

Metaray® Metal Detectable Range

Upright Broom

01

CODE						
10322	300 × 55 × 136	PBT	75	0.4	134	6

- ▶ Ideal for tight spaces, such as between equipment.
- ▶ Use with a handle.

Medium Duty Tank Brush

01

CODE						
10522	205 × 135 × 93	PBT	41	0.4	134	6

- ▶ Ideal for cleaning large tanks.
- ▶ Use with a handle.

Plastic Spatula - 76mm

13

CODE				
22112	205 × 76 × 23.5	PP	120	12

- ▶ Used for removing sticky substances, such as dough, soft chocolate, sauces, crusted dough, dried meat residue, food residues, etc.
- ▶ Plastic material will not scratch the surface.

Plastic Spatula - 110mm

13

CODE				
22122	245 × 110 × 23.5	PP	120	12

- ▶ Used for removing sticky substances, such as dough, soft chocolate, sauces, crusted dough, dried meat residue, food residues, etc.
- ▶ Plastic material will not scratch the surface.

Stainless Steel Spatula - 38mm

1mm Thickness

13

CODE				
22222	225 × 38 × 23.5	PP + SS	120	12

- ▶ Suitable for the removal of sticky food.
- ▶ Can also be used as a stirrer when processing hot food.

Stainless Steel Spatula - 80mm

1mm Thickness

13

CODE				
22242	225 × 80 × 23.5	PP + SS	120	12

- ▶ Suitable for the removal of sticky food.
- ▶ Can also be used as a stirrer when processing hot food.

Plastic Dough Cutter

13

CODE				
22312	200 × 127 × 17	PP	120	12

- ▶ Suitable for removing fillings.
- ▶ Made entirely from plastic to avoid scratching equipment surfaces.

Stainless Steel Dough Cutter

13

CODE				
22322	165 × 116 × 20	PP + SS	120	12

- ▶ Ideal for removing difficult-to-clean materials from various surfaces.

Metaray® Metal Detectable Range

Stainless Steel Dough Cutter For Handle

13

CODE				
22912	258 × 195 × 32	PP + SS	120	12

- Removes stubborn stains or crusted powder from the floor.
- Used with a handle.

Plastic Dough Cutter For Handle

13

CODE				
23012	260 × 195 × 32	PP	120	12

- Ideal for removing sticky substances such as dough, soft chocolate, sauces, crusted dough, dried meat dregs, food residues, etc.
- Plastic surface will not scratch equipment surfaces.
- Used with a handle.

Wide Dustpan

13

CODE				
22412	338 × 320 × 94	PP	120	6

- Suitable for shovelling ice, flour, additives, rice, etc.

Hand Shovel - Small

13

CODE				
22512	290 × 110 × 71	PP	120	12

- Suitable for shovelling ice, flour, additives, rice, etc.
- A deep slot at the top of the handle allows the shovel to hang from the edge of a container.

Hand Shovel - Medium

13

CODE				
22522	321 × 135 × 82	PP	120	12

- ▶ Suitable for shovelling ice, flour, additives, rice, etc.
- ▶ A deep slot at the top of the handle allows the shovel to hang from the edge of a container.

Hand Shovel - Large

13

CODE				
22532	398 × 164 × 108	PP	120	6

- ▶ Suitable for shovelling ice, flour, additives, rice, etc.
- ▶ A deep slot at the top of the handle allows the shovel to hang from the edge of a container.

Paddle

13

CODE				
22612	1200 × 160 × 32.5	PP	120	6

- ▶ Used for mixing materials in containers.

Paddle With Holes

13

CODE				
22622	1200 × 160 × 32.5	PP	120	6

- ▶ Used for mixing materials in containers.
- ▶ Designed with holes to reduce resistance when stirring.

Metaray® Metal Detectable Range

Paddle Scraper Blade

13

CODE				
22812	112 × 236 × 32	PP	120	12

- ▶ Ideal for stirring, scraping and removing materials from a container.
- ▶ Used with a handle.

Bowl Scoop - 1L

13

CODE				
22712	289 × 175 × 101	PP	120	12

- ▶ Lightweight, strong, moulded water scoop.
- ▶ Diversion ports on both sides for both left and right handed operation.
- ▶ Smooth easy-to-clean surface.
- ▶ Suitable for powder or liquid additives.
- ▶ A catch at the end of the handle allows the bowl scoop to hang on the edge of a container.

Bowl Scoop - 2L

13

CODE				
22722	323 × 213 × 118	PP	120	6

- ▶ Lightweight, strong, moulded water scoop.
- ▶ Diversion ports on both sides for both left and right handed operation.
- ▶ Smooth easy-to-clean surface.
- ▶ Suitable for powder or liquid additives.
- ▶ A catch at the end of the handle allows the bowl scoop to hang on the edge of a container.

Bucket - 6L

13

CODE				
30112	270 × 246 × 245	PP	120	6

- ▶ Suitable for storing chemicals and hot or cold additives.
- ▶ Backflow port and hand clasp at the bottom of the bucket for easy dumping.
- ▶ Flat design facing the operator helps prevent bumps and collisions causing fluid to overflow when moving.
- ▶ Multiple measurement graduations on the inner wall of the bucket.
- ▶ With hanging position for easy hanging and storage.
- ▶ Can be stacked with a lid to save space.

Bucket - 12L

13

CODE				
30122	320 × 300 × 307	PP	120	6

- ▶ Suitable for storing chemicals and hot or cold additives.
- ▶ Backflow port and hand clasp at the bottom of the bucket for easy dumping.
- ▶ Flat design facing the operator helps prevent bumps and collisions causing fluid to overflow when moving.
- ▶ Multiple measurement graduations on the inner wall of the bucket.
- ▶ With hanging position for easy hanging and storage.
- ▶ Can be stacked with a lid to save space.

Bucket - 20L

13

CODE				
30132	430 × 357 × 358	PP	120	6

- ▶ Suitable for storing chemicals and hot or cold additives.
- ▶ Backflow port and hand clasp at the bottom of the bucket for easy dumping.
- ▶ Flat design facing the operator helps prevent bumps and collisions causing fluid to overflow when moving.
- ▶ Multiple measurement graduations on the inner wall of the bucket.
- ▶ With hanging position for easy hanging and storage.
- ▶ Can be stacked with a lid to save space.

Metaray® Metal Detectable Range

Lid For Bucket 30112 - 6L

13

CODE				
30142	253 × 255 × 33.5	PP	120	6

- ▶ For use with buckets.
- ▶ Hanging hole for easy storage.

Lid For Bucket 30122 - 12L

13

CODE				
30152	301 × 309 × 40	PP	120	6

- ▶ For use with buckets.
- ▶ Hanging hole for easy storage.

Lid For Bucket 30132 - 20L

13

CODE				
30162	363 × 351 × 47	PP	120	6

- ▶ For use with buckets.
- ▶ Hanging hole for easy storage.

Scrapers and Scoops

Hedgehog® scrapers are suitable for cleaning work surfaces, conveyor belts, floors, table tops, cooking utensils and other surface areas that are difficult to clean. There is a wide choice of scrapers to meet a variety of applications. The hand scoops are suitable for ladling liquid or dry ingredients.

Most of these scrapers and scoops are colour-coded. The colour coding system helps ensure the right product is used to clean the right area to minimise the risk of cross-contamination. Colour coding can reduce the risk of bacteria transfer between cleaning zones and helps improve hygiene levels.

Hedgehog® scrapers and scoops are easy to clean thanks to their one-piece design with a smooth surface.

Scrapers and Scoops

Plastic Spatula - 76mm

01 02 03 04 05 08 10

CODE				
22113	205 × 76 × 23.5	PP	120	12

- ▶ Used for removing sticky substances, such as dough, soft chocolate, sauces, crusted dough, dried meat residue, food residues, etc.
- ▶ Plastic material will not scratch the surface.

Plastic Spatula - 110mm

01 02 03 04 05 06 07 08 10

CODE				
22123	245 × 110 × 23.5	PP	120	12

- ▶ Used for removing sticky substances, such as dough, soft chocolate, sauces, crusted dough, dried meat residue, food residues, etc.
- ▶ Plastic material will not scratch the surface.

Stainless Steel Spatula - 38mm 0.5mm Thickness

01 02 03 04 05

CODE				
22213	225 × 38 × 23.5	PP + SS	120	12

- ▶ Suitable for the removal of sticky food.
- ▶ Can also be used as turner when processing hot food.

Stainless Steel Spatula - 38mm 1mm Thickness

01 02 03 04 05

CODE				
22223	225 × 38 × 23.5	PP + SS	120	12

- ▶ Suitable for the removal of sticky food.
- ▶ Can also be used as turner when processing hot food.

Stainless Steel Spatula - 80mm

0.5mm Thickness

01 02 03 04 05 06

CODE				
22233	225 × 80 × 23.5	PP + SS	120	12

- Suitable for the removal of sticky food.
- Can also be used as turner when processing hot food.

Stainless Steel Spatula - 80mm

1mm Thickness

01 02 03 04 05 06

CODE				
22243	225 × 80 × 23.5	PP + SS	120	12

- Suitable for the removal of sticky food.
- Can also be used as turner when processing hot food.

Plastic Dough Cutter

01 02 03 04 05

CODE				
22313	200 × 127 × 17	PP	120	12

- Suitable for removing fillings.
- Made entirely from plastic to avoid scratching equipment surfaces.

Stainless Steel Dough Cutter

01 02 03 04 05

CODE				
22323	165 × 116 × 20	PP + SS	120	12

- Ideal for removing difficult-to-clean material from a variety of surfaces.

Scrapers and Scoops

Stainless Steel Dough Cutter For Handle

01 02 03 04 05

CODE				
22913	258 × 195 × 32	PP + SS	120	12

- Removes stubborn stains or crusted powder from the floor.
- Used with a handle.

Plastic Dough Cutter For Handle

01 02 03 04 05

CODE				
23013	260 × 195 × 32	PP	120	12

- Ideal for removing sticky substances such as dough, soft chocolate, sauces, crusted dough, dried meat dregs, food residues, etc.
- Plastic surface will not scratch equipment surfaces.
- Used with a handle.

Wide Dustpan

01 02 03 04 05 06 07 08 09 10 11 12

CODE				
22413	338 × 320 × 94	PP	120	6

- Suitable for shovelling ice, flour, additives, rice, etc.

Hand Shovel - Small

01 02 03 04 05 06 07 12

CODE				
22513	290 × 110 × 71	PP	120	12

- Suitable for shovelling ice, flour, additives, rice, etc.
- A deep slot at the top of the handle allows the shovel to hang from the edge of a container.

Hand Shovel - Medium

01 02 03 04 05 06 07 12

CODE				
22523	321 × 135 × 82	PP	120	12

- Suitable for shovelling ice, flour, additives, rice, etc.
- A deep slot at the top of the handle allows the shovel to hang from the edge of a container.

Hand Shovel - Large

01 02 03 04 05

CODE				
22533	398 × 164 × 108	PP	120	6

- Suitable for shovelling ice, flour, additives, rice, etc.
- A deep slot at the top of the handle allows the shovel to hang from the edge of a container.

Paddle

04

CODE				
22613	1200 × 160 × 32.5	PP	120	6

- Used for mixing materials in containers.

Paddle With Holes

04

CODE				
22623	1200 × 160 × 32.5	PP	120	6

- Used for mixing the materials in the container.
- Designed with holes to reduce resistance when stirring.

Scrapers and Scoops

Paddle Scraper Blade

01 02 03 04 05

CODE				
22813	112 × 236 × 32.4	PP	120	12

- ▶ Ideal for stirring, scraping and removing materials from containers.
- ▶ Used with the handle.

Bowl Scoop - 1L

01 02 03 04 05 06 07 12

CODE				
22713	289 × 175 × 101	PP	120	12

- ▶ Lightweight and strong, moulded water scoop.
- ▶ Diversion ports on both sides for both left and right handed operation.
- ▶ Easy-to-clean smooth surface.
- ▶ Suitable for powder or liquid additives.
- ▶ A catch at the end of the handle allows the bowl scoop to hang on the edge of a container.

Bowl Scoop - 2L

01 02 03 04 05

CODE				
22723	323 × 213 × 118	PP	120	6

- ▶ Lightweight and strong, moulded water scoop.
- ▶ Diversion ports on both sides for both left and right handed operation.
- ▶ Easy-to-clean smooth surface.
- ▶ Suitable for powder or liquid additives.
- ▶ A catch at the end of the handle allows the bowl scoop to hang on the edge of a container.

Buckets

Hedgehog® buckets and lids are great for mixing, transporting and storing any type of liquid. They are stackable when use with the lids.

Hedgehog® buckets are easy-to-use and comfortable to hold, thanks to their ergonomic design. They include a backflow port and hand clasp at the bottom of the bucket for easy dumping. The flat design facing the operator helps prevent bumps and collisions causing fluid to overflow when moving. There are multiple easy-to-read measurement graduations on the inner wall of the bucket.

The surface of the buckets is smooth and easy to clean They can be hung for drying.

All Hedgehog® buckets and lids are colour coded with up to 12 colours available. The colour coding system helps ensure the right product is used in the right area to minimise the risk of cross-contamination. It minimises the risk of bacteria transfer between cleaning zones and helps improve hygiene levels.

Buckets

Bucket - 6L

01 02 03 04 05 06 07 08 09 10 11 12

CODE				
30111	270 × 246 × 245	PP	120	6

- ▶ Suitable for storing chemical and hot or cold additives.

- For use with buckets.
- Hanging hole for easy storage.

Duoswee® Floor Squeegees

There are various products in the Hedgehog® Duoswee® Floor Squeegee range to suit different uses. There are also multiple sizes to choose from, to meet a variety of needs. Integrated monolithic TPE floor squeegees are suitable for cleaning areas with high hygiene requirements. They effectively remove any liquid, semi-solid or loose, dry substance from surfaces.

The replaceable double rubber floor squeegees are easy to disassemble for cleaning and maintenance. There are two materials available for squeegee refills. The squeegee refills, made from rubber or TPE. Both of the ranges can be used to efficiently remove surface liquid and semi-solids. Both the rubber and TPE squeegee ranges include fixed and swivel squeegees.

The Hedgehog® Duoswee® Floor Squeegee range is colour-coded. Different coloured floor squeegees are available for cleaning different areas to minimise the risk of cross-contamination.

Duoswee® Floor Squeegees

Floor Squeegee - 300mm

01 02 03 04 05 06 07

CODE				
20111	300 × 77 × 89	PP + TPE	120	12

- ▶ High efficiency multi-purpose single blade squeegee.
- ▶ Angled ends for cleaning corners and equipment.
- ▶ Soft rubber prevents the squeegee skipping when working across dry surfaces.
- ▶ Reliable and hygienic one piece design. To be used with a handle.

Floor Squeegee - 400mm

01 02 03 04 05 06 07 08 09 10 11 12

CODE

Duoswee® Floor Squeegees are Suitable for all types of floors.

Handles

There are a wide variety of handles available in the Hedgehog® product range including:

- ▶ Fully integrated plastic handles - hygienic and more convenient for cleaning.
- ▶ Lightweight aluminium alloy handles - easy to use.
- ▶ Telescopic handles - use to clean hard-to-reach places, or high surfaces easily and more effectively.
- ▶ Flexible stainless steel handle - fast and efficient for cleaning bent pipes.
- ▶ Water-Fed Telescopic Handle - connect to water-fed cleaning equipment for a complete water cleaning system.

All handles in our range are colour-coded. There are 12 colours available in each product. Use them in different areas to reduce the risk of cross-contamination.

Handles

All Plastic Hygienic Handle

01 02 03 04 05 06 07 08 09 10 11 12

CODE				
18116	1300	PP	120	12
18126	1500	PP	120	12
18136	1700	PP	120	12

- ▶ Suitable for all threaded cleaning tools.
- ▶ The integrating moulded handle reduces the risk of carrying contaminants between cleaning areas and is ideal for food production with high hygiene standards.
- ▶ All materials comply with food hygiene regulations, and are easy to clean and dry.

Aluminium Handle

01 02 03 04 05 06 07 08 09 10 11 12

18526	3000	SS	250	12

- ▶ 304 Stainless Steel, rust-proof.
- ▶ Flexible design for easy cleaning of bent pipes.
- ▶ Use with tube brushes (10916/10926/10936/10946/10956/10966).

Water-Fed Telescopic Handles make washing a easy task.

Belowat® Water-fed System

The Hedgehog® Belowat Water-fed System is a complete water-fed cleaning system, suitable for cleaning a variety of environments. It makes cleaning efficient and convenient.

There are various high quality coupling/joints in the system. They are used to connect different cleaning equipment. They can be installed and replaced quickly and easily.

The Belowat® Heavy Duty Water Gun provides optimum cleaning utility in a variety of environments. Especially suitable for washing areas that are otherwise difficult to clean.

Two types of water hoses are available in the Belowat Water-fed System. Cold water hoses have a temperature resistance up to 40°C; hot water hoses up to 70°C.

Belowat® Water-Fed System
